most valuable asset of the reich a history of the german national railway volume 1 1920 1932

originally published in 1979 this volume is an invaluable study of a railway system and its adjustment to changing political geographical conditions as well as changes in economic and social geography each change in the territorial extent or in the internal territorial administrative organisation of germany has had its repercussions upon the spatial pattern of the country s economy and consequently upon the demand for transport furthermore the central position of germany within the continent has given an added importance to the role of its railways in the overall pattern of the european railway system for the transport geographer the comparisons and contrasts with the british railway system are particularly insightful

the largest enterprise in the capitalist world between 1920 and 1945 the deutsche reichsbahn german national railway was at the center of events in a period of great turmoil in germany in this the second volume of his comprehensive history of the reichsbahn alfred mierzjewski offers the first complete account of the national railway under hitler s regime mierzjewski uses sources that include nazi party membership records and reichsbahn internal memoranda to explore the railway s operations finances and political and social roles from 1933 to 1945 he examines the reichsbahn s role in german rearmament its own lack of preparations for war and its participation in germany s military operations he shows that despite successfully resisting nazi efforts to politicize its internal functions the reichsbahn cooperated with the government s anti semitic policies indeed the railway played a crucial role in the holocaust by supporting the construction and operation of the nazi death camps and by transporting jews and other victims to them
