this book takes both a global as well as a local perspective in assessing the impacts of climate change on the economy agricultural sector and households in three of the mena countries syria tunisia and yemen the major channels of impact for global climate change are through changing world food and energy prices especially since all the countries under analysis are or have become net importers of oil and petroleum products and many food commodities in recent years the impacts of local climate change decrease crop yields in the longer run and through them productivity in the agricultural sector and all the implications this may have on both the

livelihoods of those dependent on the sector as well as the rest of the economy the analysis also covered what happens when both global and local climate changes work simultaneously for each country findings show that in all three countries the effects of climate change are negative for people and the economy gdp falls and livelihoods suffer furthermore the prevalence of extreme variations in climate such as the droughts affecting syria and the floods impacting yemen draws attention to the potentially significant drawbacks that are likely to not only affect any strides towards economic growth and development but may also reverse such strides if appropriate policies are not in place to weather this storm the analyses in this book apply cge models

this book is a philosophical critique of the economics of climate change from both an ethical and philosophy of economics perspective mitigating climate change is not so much a scientific problem but rather a political social and above all an economic problem a future without greenhouse gas emissions requires a radical transformation towards a sustainable low carbon economy and society how this transformation could be achieved raises numerous economic questions many of these questions remain untouched although economists are equipped with a suitable toolkit and expertise this book argues that economists have a social responsibility to carry out more research on how global warming could be stopped and that ultimately economic analysis of climate change must be a political economic approach that treats the economy as part of a wider social system this approach will be of interest to policy makers educators students and researchers in support of more pluralism in economic research and teaching

in the light of the covid 19 pandemic this book is not only timely but essential reading providing valuable insight into teaching economics both online and in a blended online in person format diverse in scope teaching economics online combines past experience with innovative ideas on how to design teaching and improve the overall learning experience whilst remaining inclusive effective and resilient

innovations in economic education addresses the growing issue of financial illiteracy by showing how economics can be successfully integrated into classrooms from kindergarten through higher education pre service teachers experienced educators curriculum leaders parents and school administrators will find practical ideas to improve economic understanding at the elementary level the book provides creative ways of introducing young students to the basic concepts of economics financial justice and social action for higher grade levels the book offers ideas to integrate economics into current history civics and math curricula the final portion of the book features recommendations by leading economic educators on how economics can play a greater role in teachers professional development the pedagogical tools

presented in each chapter include lesson plans and practical insights and are designed to meet the ncsc c3 framework and common core state standards for social studies this book is a timely and valuable resource for all educators interested in improving their students economic literacy and financial decision making

a groundbreaking work which presents a unified theory of human behaviour grounded in economic thought

the first annual conference of economic forum of entrepreneurship international business organized by dr ghada goma a mohamed conference venue triumph hotel heliopolis cairo egypt conference proceeding library archive canada conference date april 14th april 17th 2011 edited by dr ghada mohamed dr morrison handley schachler epe lac bac gc ca 100 201 300 annual conference economic v01 pdf

this latest fifth assessment report of the ipcc will again form the standard reference for all those concerned with climate change and its consequences

the coursetutor is written by jerry stone and is designed to allow maximum practice review and to do so interactively students can use the coursetutor as practice as in class exercise or as homework to be assigned

instead of simply defining terms microeconomics a contemporary introduction 4th ed introduces economic concepts using real world examples which students understand from experience the book facilitates instructor flexibility by providing both traditional examples and contemporary cases making economic theories easily accessible interesting and understandable

economic analysis can shed light on the consequences of the law s murky operations by focusing on the incentives created by the law applying economic principles to legal problems brings a better understanding of the implications of legal rules
