Carefully selected reading passages introduce students to fundamental topics such as an introduction to economics, microeconomics vs macroeconomics, market structures and competition, the role of government in the economy, and measuring economic performance. Additional chapters explore money, banking, and financial institutions (parts 1 and 2), international trade and globalization, and economic development and sustainability. Each chapter is structured to reinforce vocabulary acquisition and reading comprehension strategies, equipping students with essential academic skills such as identifying main ideas, summarizing, and making inferences. This book aims to serve as a bridge, fostering greater confidence in English proficiency and deeper insights into the dynamic field of economics, thus opening pathways to future academic and professional opportunities.

Environmental economics explores the ways in which economic theory and its applications as practised and taught today must be modified to explicitly accommodate the goal of sustainability and the vital role played by environmental capital, pivoting around the first and second laws of thermodynamics as well as the principles of ecological resilience. This book is divided into five key parts, which includes extensive coverage of environmental microeconomics and macroeconomics. It drills down into issues and challenges including consumer demand, production and supply, market organisation, renewable and non-renewable resources, environmental valuation, macroeconomic stabilisation, and international trade and globalisation. Drawing on case studies from forestry, water, soil, air quality, and mining, this book will equip readers with skills that enable the analyses of environmental and economic policy issues, with a specific focus on the sustainability of the economy. Rich in pedagogical features, including key concepts boxes and review questions at the end of each chapter, this book will be a vital resource for upper-level undergraduate and postgraduate students studying not only environmental economics, ecological economics, but also economics in general.

The new edition of this college-level text includes some format revisions as well as updating areas such as the problems faced in transitional economies, the method of calculating unemployment, GATT and NAFTA, and other recent developments. Each chapter provides a summary, review topics, and discussion.

Dornbusch, Fischer, and Startz's *Macroeconomics* has been a leading intermediate macroeconomic theory text since its introduction in 1978. This revision retains most of the text's traditional features, including a middle-of-the-road approach and very current research, while updating and simplifying the exposition. The text is now even easier to teach from the only prerequisite, *Principles of Economics*.

In the recent economic history of Latin America, no country has yet found the means to combine effectively economic growth with equity. Unavoidable industrial restructuring in Latin

america compares the development path of latin america with that of the east asian newly industrialized countries nics the united states and europe in the 1970s and 1980s to show the national policies and international cooperation necessary to set latin american countries on the road to healthy economies fernando fajnzylber argues that technological and industrial progress is the driving force of a positive relationship among dynamism competitiveness austerity and equity latin america s failure to master this technological progress underlies its economic difficulties to overcome the inheritance of past mistakes the author maintains latin america must undergo not only macroeconomic stabilization and a reduction of the debt burden but also a complete transformation of the production structure the role of the state and the institutional setup need to be modified and new social and sectoral policies devised fajnzylber sees this radical restructuring as an unavoidable step if latin america is ever to achieve a workable balance between growth and equity
