in ontology and closeness in human nature relationships neil h kessler identifies the preconceptions which can keep the modern human mind in the dark about what is happening relationally between humans and the more than human world he has written an accessible work of environmental philosophy with a focus on the ontology of human nature relationships in it he contends that large scale environmental problems are intimate and relational in origin he also challenges the deeply embedded modernist assumptions about the relational limitations of more than human beings ones which place erroneous limitations on the possibilities for human more than human closeness diverging from the posthumanist literature and its frequent reliance on new materialist ontology the arguments in the book attempt to sweep away what ecofeminists call human nature dualisms in doing so conceptual avenues open up that have the power to radically alter how we engage in our daily interactions with the more than human world all around us given the diversity of fields and disciplines focused on the human nature relationship the topics of this book vary quite broadly but always converge at the nexus of what is possible between humans and more than human beings the discussion interweaves the influence of human nature dualisms with the limitations of deleuzian becoming and

posthumanism's new materialism and agential realism it leverages interhuman interdependence theory charles peirce's synechism of feeling and various treatments of theory of mind while exploring the influence of human nature dualisms on sustainability place attachment common worlds pedagogy emergence and critical animal studies it also explores the implications of plant electrical activity plant intelligence and plant neurobiology for possibilities of relational capacities in plants while even grappling with theories of animism to challenge the animate inanimate divide the result is an engaging novel treatment of human nature relational ontology that will encourage the reader to look at the world in a whole new way

provides an in depth analysis of human horse relationships in equestrian sport and leisure contains original research on the ways that human society is structured around interaction with nonhuman others explores the individual and collective identities that are performed through involvement in the horse world

the routledge handbook of the ethics of human enhancement provides readers with a philosophically rich and scientifically grounded analysis of human enhancement and its ethical implications a landmark in the academic literature the volume covers human enhancement in genetic engineering neuroscience synthetic biology regenerative medicine bioengineering and many other fields the handbook includes a diverse and multifaceted collection of 30 chapters all appearing here in print for the first time that reveal the fundamental ethical challenges related to human enhancement the chapters have been written by internationally recognized leaders in the field and are organized into seven parts historical background and key concepts human enhancement and human nature physical enhancement cognitive enhancement mood enhancement and moral enhancement human enhancement and medicine legal social and political implications the depth and topical range of the handbook makes it an essential resource for upper level undergraduates graduate students and postdoctoral fellows in a broad variety of disciplinary areas furthermore it is an authoritative reference for basic scientists philosophers engineers physicians lawyers and other professionals who work on the topic of human enhancement

this prescient handbook adopts an overarching perspective on service experiences in business contexts incorporating up to date research and empirical case studies chapters focus on customer experience design innovation and management in the digital era

all human relationships are containers of emotional life but what are the structures underlying them nathan schwartz salant looks at all kinds of relationships through an analyst's eye by analogy with the ancient system of alchemy he shows how states of mind that can undermine our relationships in marriage in creative work in the workplace can become transformative when brought to consciousness it is only by learning how to access the interactive field of our relationships that we can enter this transformative process and explore its mysterious potential for self realization

this book introduces four influential chinese educators of the later 20th century whose writings had enormous influence on many dimensions of the educational reforms which underly china's remarkable transformation into a global superpower none of them published in english and only li bingde a leader in educational experimentation had studied abroad huang ji at beijing normal university was an educational philosopher who interpreted chinese classical texts as well as arts such as calligraphy and painting in ways that brought new life to chinese pedagogy lu jie at nanjing normal university and wang fengxian at northeast normal university were leaders in developing a whole new approach to moral education that highlighted subjectivity and self awakening as china became a socialist market economy

this book acknowledges the significant changes in the context and contours of the traditional employee employer relationship over the last several decades and highlights the emergence of exciting new directions for the study of psychological contracts pc new technologies and emergent forms of work are extending the temporal and spatial boundaries of employment such as through the rise of the shared economy and gig

workers uptake of virtual work and flexible work arrangements and the use of off site co working spaces technology use now permeates many aspects of jobs supported by artificial intelligence and machine learning technology factors that motivate work are also changing as new generations of employees embrace their callings and organizations increasingly recognize their responsibilities to society and to employee wellbeing these changes are altering the traditional employer employee relationship and are key motivators of this volume the chapters in this volume chart new directions for pc research over the next decade by widening the theoretical and methodological lenses used to explore pc processes this book will be valuable to advanced students researchers and practitioners in organizational psychology organization studies workplace training and human resource management as well as those interested in improved performance of people and organizations the chapters in this book were originally published as a special issue of the european journal of work and organizational psychology
