William Smith's Dictionary of the Bible The Journal of the Royal Historical and Archaeological Association of Ireland Critical and Exegetical Hand-book to the New Testament The Sikh Tradition *David Parker Daniel W. Brown Joseph R. Caldwell Peter Tomson Robert Mooney Jan Fekkes III Jonathan Wadhams Curvin Andrew Jervise François Lenormant Augustus J. Thébaud Bigelow William Thomas Stead William Smith Royal Historical and Archaeological Association of Ireland Heinrich August Wilhelm Meyer Sardar Singh Bhatia*

a collection of eight european case studies this essential guide provides a comparative survey of all the major revolutions in the west over the past 400 years

questions about the authenticity and authority of sunna have long been of central importance to the study of islam especially to those concerned with islamic law in this fascinating study daniel brown traces the emergence of modern debates over sunna focusing in particular on egypt and pakistan where these controversies have raged most fiercely and assesses the implications of new approaches to the law on contemporary movements of islamic revival using the case of modern islam as a starting point the author considers how adherents of any great tradition deal with change

while interest in paul s relationship to judaism has been growing recently this study adds an important aspect by comparing paul s practical instruction with the ancient halakha or jewish traditional law first corinthians is found to be a source of prime importance and surprisingly halakha appears to be basic to paul s instruction for non jewish christians the book includes thorough discussion of hermeneutic and methodological implications always viewed in relation to the history of pauline and judaic study attention is also being paid to the setting within hellenistic culture finally conclusions are drawn about the texture of paul s thought and these are applied to two theological passages decisive for his place in judaism historical and theological implications are vast both regarding paul s relationship to judaism his attitude towards jesus and his apostles and the meaning of his teaching concerning justification and the law

this work is concerned with the influence of biblical and prophetic traditions on the author of the book of revelation and in particular his use of the prophecies of isaiah

first john s own prophetic consciousness and expression is compared with previous israelite jewish and early christian prophetic conventions this is followed by an evaluation of john s use of the ot in general including a discussion of methodology for isolating allusions the question of the validity of the terms quotation and allusion in revelation and the presence of thematic patterns in the author s choice of scripture all this is foundational to the main portion of the work ch iii where a detailed analysis is undertaken to determine the validity of all proposed allusions to isaiah in the book of revelation of the 72 suggested allusions treated 40 were judged as certain or virtually certain 24 were considered as unlikely or doubtful and 8 were appraised as probable or possible those allusions which were accepted received further evaluation to see how and why they were used by john with special attention given to the tradition history of the passage used and the possible interpretative techniques employed a variety of exegetical and literary devices were uncovered including the use of catchwords inclusio repetition of texts exploitation of hebrew parallelism and the collection of texts around a central theme furthermore john s use of isaiah is concentrated in basic areas with clusters of isaiah texts appearing in specific sections of revelation the principal isaian themes with which he is interested are holy war and the day of the lord oracles against the nations and salvation prophecies relating to the community of faith and the restored and glorified jerusalem it was concluded that on the whole john s use of isaiah is not random and he does not use the ot texts merely as a visionary resource for language phrases structural patterns etc but he consciously carries on the prophecies of his biblical predecessors and invokes their authority the remnants and results of john s interpretation of isaiah presuppose exegetical activity and application prior to the vision experience and it is likely that at least some of his intended readers were familiar not only with his theological concerns but also with his methodological approach
