kevin de ornellas argues that in renaissance england the relationship between horse and rider works as an unambiguous symbol of domination by the strong over the weak there was little sentimental concern for animal welfare leading to the routine abuse of the material animal this unproblematic practical exploitation of the horse led to the currency of the horse rider relationship as a trope or symbol of exploitation in the literature of the period engaging with fiction plays poems and non fictional prose works of late tudor and early stuart england de ornellas demonstrates that the horse a bridled unwilling slave becomes a yardstick against which the oppression of england s poor women increasingly uninfluential clergyman and deluded gamblers is measured the status of the bitted harnessed horse was a low one in early modern england to be compared to such a beast is a demonstration of inferiority and subjugation to think anything else is to be naïve about the realities of horse management in the period and is to be naïve about the realities of the exploitation of horses and other mammals in the present day world
